

Chapter One

<https://www.facebook.com/profile.php?id=100091294232805&mibextid=9R9pXO>

I survived psychiatry. Therefore, the drug pushers are lying when they say patients will have to remain on the drugs for their whole lives.

i'm finally allowed to choose where to reside. I won hearing to acquire what most take for granted. In a historic case, I moved out of a group home. The abusers don't allow independence. I had to convince a judge to let me choose where and how to live.

Relaxation and euphoria both prevent paranoia. Surprise! Medicinal cannabis is how I survived forced psychiatry..

Ppl labeled "mentally ill" are victims of torture. Psychiatry preys upon good and innocent ppl.

Autism is devastating, hence Post Traumatic Stress Disorder. Most autism is much worse than my case, I'm denied a job since I "don't look disabled".

Savant syndrome is nothing like how it's portrayed on TV or in movies. I'm fed up with being an easy target. Appearing in public alone is terrifying. I've never harmed anybody and I'm fed up being labeled a "retard" and a "creep" and told "we don't like your kind around here". The populace is unaware that those discriminated against are on the spectrum glo(u)rified in fiction. The couch potatoes who ask, "can I help you, freak?" also glamo(u)rize suffering by claiming to have a "superpower". They fake autism for clout and harass autists, fasely accusing abused individuals of "self hatred". The positive aspects of savant syndrome are few and far between.

Unintentional ableism is still ableism.

Kedrick the Head Trip here. As of 2023, I'm feeling much better, having survived the Continuum of Care by the Department of Mental Health and Addiction Services in Connecticut.

I spoke out against forced psychiatry, and I was repeatedly retraumatized. There's no mass delusion, people who get abused don't share a delusion. Drug pushers misdiagnose easy targets to shift the blame away from themselves, projecting their own insecurities upon good and innocent people. Junkies get their fix at detoxification wards and preach sobriety.

I wrote critical reviews, and the violations escalated. Once I finally got diagnosed with Post Traumatic Stress Disorder, abusers shifted tactics from forced drugging and involuntary admissions to housing me with predators and trying to blind me I survived despite betrayal by liars I considered my friends for more than years. I got sent to improper settings and denied help that could have easily been provided. Some of those liars pretended to be my friends since long before adulthood, then they stopped pretending. When I got housed with predators and not allowed better housing, phony "friends" disrespected me. They wouldn't have to owe me anything

to do what friends are for. They didn't believe me or care since they couldn't see any shackles on me.

One person had a disease and a son. The remainder of them never explained.

I fled a house in Wethersfield and the housing available was in New Haven, where I could've been murdered, so I fled to Bristol and requested a Probate Court Hearing.

Knowing my life expectancy is shortened, liars in a mid life crisis downplay my plight like they don't know better. They'll probably outlive me by at least 4 decades.

I wrote an essay;

1

Recovery from Forced Psychiatry

Now that I've recovered from forced psychiatry, a plethora of psychiatrists who had retaliated desisted.

I was experimented on by Dr. Richard Miller at the Wheeler Clinic in Plainville, Connecticut from 5th grade until graduation in 2005. Autism (more specifically, Asperger's syndrome) made me an easy target.

I was forcibly drugged to pull out my hair and fall asleep, then sent to detention for suffering from forced psychiatry; hence exacerbated Post Traumatic Stress Disorder.

I wasn't allowed to taper off of pharmaceuticals when I graduated, I suffered withdrawal symptoms and was tortured. I was sent from Bradley Memorial Hospital in Southington, Connecticut to New Britain General Hospital in New Britain, Connecticut. Dr. Michael Edward Balkunas misdiagnosed Autism and Post Traumatic Stress Disorder as "bipolar disorder, schizoaffective disorder, and schizophrenia" or something like that without meeting me or corresponding with me. He vowed revenge because medicinal cannabis reduces the harm caused by forced psychiatry.

Community Mental Health Affiliates exacerbated Post Traumatic Stress Disorder by forcibly drugging me and forcing me into hospitals. I was denied assistance attending college.

I was also abused at Bristol Hospital Counseling Center.

Susanne Wargo forced me to take Xanax and I had a seizure from misplacing it. The staff at Bristol Hospital claimed the cause of the seizure was "undetermined" and I was abused in the psychiatric ward. Dr. Nachiappan Manoharan (sp) threatened forced injections of Zyprexa to cause diabetes, pancreatitis, and heart attacks, thus death; that's attempted murder.

Barbara Braunstein falsely accused me of using illicit narcotics whilst knowing I was forcibly prescribed drugs to cause drowsiness and threatened to drug test me. This person "worked" at the same location where I was forcibly drugged. The threat to drug test me was probably a bluff.

Margaret Pienezak of Community Mental Health Affiliates caused an anxiety attack by threatening to commit me after I was nearly murdered, falsely accused of being

a "sex offender" because I'm an easy target. Dr. John A. Nazarian sent Margaret Pienezak and Michael Higgassin (sp?) to lie under oath knowing they'd get away with perjury. Attorney Katrina Camera was appointed as Conservator without grounds.

Alice Martinez of the Department of Public Health lied about why I reported CMHA. It had nothing to do with not prescribing cannabis, I reported violations such as misdiagnoses and forced drugging. The DPH retaliated by encouraging torture. CMHA retaliated by sending me to Connecticut Valley Hospital in 2015. No risk factors were identified. I was discharged when housing was available about 4 months later.

I was sent to the Continuum of Care. I was then subjected to Leann Farley's cruelty. I nearly went blind from excessive lights and I got underweight because staff members bullied me for eating. Leann retaliated by not allowing use of the stove at night since I had to hide to eat.

July 2022

I fear for my life because it's in the hands of criminally negligent Attorney Katrina Camera, appointed in 2014. Dr. John A. Nazarian of Community Mental Health Associates, a hate group, vowed revenge and meant it. He lied about why I reported him. It had nothing to do with what he doesn't prescribe. I knew I'd recover from pharmaceuticals if they were tapered. Nazarian doesn't allow recovery, hence the Conservator.

A Probate Judge broke the law and he has since retired.

Margaret Pienezak of CMHA caused anxiety by threatening to commit me for being assaulted over a false rumour. I was nearly murdered for being falsely accused of being a "sex offender" since I'm an easy target. I had to get out of CMHA to recover from forced drugging. CMHA's staff members lied about why I reported them. The Department of Public Health retaliated.

Since 2015, Continuum of Care has abused me.

Due to photophobia (i.e. light sensitivity,) from autism, my eyes hurt from being constantly subjected to bright lights while trapped in an improper setting.

Continuum of Care an agency claiming to "rebuild lives", employs negligent staff without any certifications. They're in it for an easy paycheck. I pleaded with them to stop allowing a bully to destroy my belongings. They hid in the office. They tried and failed to commit me for being harassed by a bully they forced me to reside with. I'm still a hostage since I don't choose where to reside. I finally moved out of that place, still trapped in the Continuum of Care. My own \$ would be withheld if I discharged myself.

Ppl with autism are under attack and expected to not defend ourselves.

The Department of Public Health

would probably retaliate if I reported said violations. Continuum of Care continues escalating its violations. As for why said scam still occurs, laws against such abuses are unenforced.

A staff member destroyed a resident's computer (not recently). Manager Leann Farley (in Wethersfield) probably destroyed my cell phone knowing I'd figure it was Mike Inigo, Jr. as usual.

2

Rebuttal to Sarah Carlson-Allwood

I recovered from pharmaceuticals years ago. They were finally tapered.

Sarah Carlson-Allwood misdiagnosed autism and PTSD as "schizoaffective, bipolar disorder". Trauma happened.

Medicinal cannabis saves lives. I have the license now. It's how I recover.

Falsifying medical records is illegal, the authorities just don't care. Sarah Carlson-Allwood vowed revenge because I'm unwilling to suffer from psychiatry, hence the "recommendation": being locked up and tortured at Connecticut Valley Hospital.

The safest and most effective medical necessity still prevents paranoia because it's still relaxing. Get over it.

Medicinal cannabis is the only way to concentrate, relax, and be motivated after being forcibly drugged since childhood.

3

Refuting Media's Lies About Autism

Nobody who downplays autism knows what a spectrum is. The media neglects to mention the severe cases of autism. I know it's usually much worse than what I have. Autism can mean being nonverbal and prone to seizures and wearing helmets and even diapers. Nobody downplaying autism knows about the varying degrees thereof. All degrees of autism are devastating and it didn't simply go unnoticed until recently. The prevalence of autism is rising. It's not increased awareness, it's an epidemic.

While TV shows and movies downplay autism, the news indoctrinates the populace to despise autistic people.

Having a medical condition has nothing to do with being in a community and autism existed before Reddit.

August 2022

An application was sent for better housing in Bristol. Continuum of Care's violations continue escalating. Two staff members, Tanice and Gary, disrespected me by befriending a mailman who threatened to assault me. I finally learned his full name, Milton Jackson.

After I explained my difficulty controlling the volume of my voice, the mailman threatened to control it for me. He asked Tanya, who recently began working here, if she controls ms, she explained that she doesn't.

Towards the end of August, Gary and Tanice retaliated by befriending Milton Jackson just to spite me.

Also, Jess denies the need to add more food to the pantry.

At the end of August, food was finally added to the pantry.

September 2022

New staff said to give them a chance. The air conditioner remains on in late September.

October 2022

The heat's finally on.

November 2022

I gave my 30 days notice and moved to Bristol. The conservator had no idea I knew her cell phone number. I sent a text because she never returns my calls.

December 2022

For the time being, my mother replaced Attorney Camera as Conservator.

Chapter Two

<https://waterandhealth.org/newsletter/chlorination.html>

The only company I had was Megan Prue, my ex girlfriend with whom I hooked up twice in the spring. She had the idea that my mother could replace her representative payee due to too many restrictions on her account. Unfortunately, my mother couldn't help.

Meg tried to escape the group home racket and the predators sent the police to commit her. They tracked her phone.

April 2023

The reign of terror worsens. I'm prevented from visiting Megan Prue at Bristol Hospital. The drug pushers won't let her recover. She called Friday, April 28th 2023. She gets out Monday. She'll be discharged to the same group home she'd just fled, unfortunately. I'll help as much as I can.

The drug pushers were told that everyone who gets locked up gets traumatized, there's no recovery while still locked up, there's no recovery while still prescribed drugs to cause harm, and shame on them for not allowing the visit; they're sadists. The drug companies wouldn't inevitably collapse just because one person recovers. Good and innocent people still suffer and die from forced psychiatry because psychiatry still exists.

An advocate called me on Tuesday, May 2nd 2023 and will call lawyers.

Monday, June 5th, 2023

Continuum of Care's "Clients Rights and Grievance Officer" Dave Olstrom denied my light sensitivity and he denied that crooks were hiding in the office knowing I got preyed upon.

Tuesday June 13th, 2023

I got a letter from De Marco Management, falsely accusing me of unpaid of rent and damage, denying me the entire security deposit; the former Conservator documenting paying rent.

I called out abusers :

The junky staff members at @bristol_health sent a friend of mine back to where she fled abuse, @gileadcommunityservices

A liar denied that abuse occurs at Gilead Community Services , as if everyone who wrote critical reviews inexplicably shares a delusion. Yeah, right! The abusers won't let an alleged "client" contact anyone, they bribed the police to get away with said violation, and it's because the aforementioned person tried to move out of a group home described as "like a concentration camp".

The critical reviews add to the evidence.

(Praise the deities for Google reviews!)

A liar tried to cover his ass by questioning my intentions while a friend of mine is forcibly drugged and deprived of the ability to contact anyone.

I called Gilead Community Services about Justin Salvio falsely accusing me of "harassment" now, and I was told his supervisor will contact me.

I heard some dubious claims today.

My mother called that liar. I asked for an update. Barely anything was disclosed.

Supposedly, Meg's safe and choosing to take a break from contacting anyone. I'm told to "be patient", "she'll reach out when she's ready".

In fact, I had been told she's denied ability to contact anyone. Now I'm told this isn't forced.

This contradicts all prior information.

I'm still concerned they're abusing her. A group home isn't devoid of abuse.

I posted this online.(again) (updated since:

Predators at a group home are preventing my friend from contacting me because I tried to help her escape and recover from psychiatry, the group home racket, et cetera

As of Tuesday, September 12th, 2023

A woman who tried to recover from psychiatry and have a better life is now subjected to much worse abuse at Gilead Community Services in Middletown, Connecticut, described as "like a concentration camp"; the sadists at Bristol Hospital sent her back there. I risked my life preventing police brutality. She ran

back in to where I reside, the cops grabbed her, and I intervened; then a predator questioned my intentions because his job includes bribing the cops and hiding evidence of abuse. Justin Salvio abuses women. The aforementioned is forcibly drugged to cause damage. The predator said, "that's between her and her psychiatrist", the same torturer who lied so the woman got committed for trying to recover. The so-called "medications" are meant to cause irreversible harm. I know the abused woman is unwilling to use the pharmaceuticals damaging her. Most psychiatrists never take "no" for an answer. They're drug pushers, not merely dealers. The abusers at the group home are lying. They don't plan to ever let this woman contact me again, I survived psychiatry and I tried to help her survive. If she were allowed independence, then she wouldn't have been subjected to revenge for discharging herself and seeking a better life. She didn't choose to "take a break from friends", the abusers won't let her contact anyone and especially not me. They said she said she'll "reach out when she's ready" like they'd let her reach out. She also would've told me first if she willingly stopped using her phone and social media.

The lack of contact can't be her choice. I've known her for more than years and she wouldn't cause anxiety by not telling me before "taking a break from friends". She can't be "safe" at the group home, she tried to escape and the abusers vowed revenge and meant it.

They know I helped and they won't allow that ever again.

These abusers are by the Department of Mental Health and Addiction Services (rather than the Department of Developmental Services [not that area of the spectrum]).

Autism is inherently devastating.

Justin Salvio is a predator, a gaslighter, and a liar. His extension is 3420 at 1 860 343 5300. "

This morning, still too dehydrated, screaming in pain. If I went to a doctor, I'd go blind and worse because of lights everywhere.

Felt better eventually.

Wednesday, September 13th, 2023

Upping the ante. I publicized Justin Salvio's atrocities and posted a link to his FB profile.

I wrote this some months ago:

I got tortured for opposing ableism and I got evaded by the ACLU

I called for a Probate Court hearing to choose where and how to live. I'm still isolated because phony "friends" stopped pretending to be my "friends".

I don't believe their lie that they've never heard of Conservatorship or Guardianship. Attorney Katrina Camera was Conservator of Person. I would've never willingly subjected myself to improper settings. I had to wait to move because of the Conservatorship.

Nathaniel Oakes sneered, "rent is standard" knowing I wasn't allowed to choose where to reside and I got tortured by crooks while a lawyer paid them my \$ instead of letting me choose where or how to live.

Kevin Curtis is a liar who faked a friendship since middle school, then insulted me when I got tortured again and he could've easily helped. I don't drive, and he could've transported me away from abusers. Instead, he insulted me. He said, "I can't remember the last time someone reached to me without needing something".

Bryan Durkee gaslit me by blaming my perspective. I reminded him he could've provided a break from the trauma. He had a vehicle and a license to drive. Sam Yosafi couldn't have been unaware that I wasn't allowed to "get a lawyer", the Conservator would've never allowed that. I got housed with known sexual predators because I wrote critical reviews of scams by the Department of Mental Health and Addiction Services.

new moon tonight in Vrgo tonight

A lot of ppl from the south think New Haven isn't slum. They thibk that death trap is a "suburb" rather than a slum.

☺☺☺☺☺☺☺☺

Mercury goes direct today.

Medical necessity used to do more than save my life, I used to also get high. If I tried a tolerance break, symptoms would resurface. Nothing's enjoyable when isolated.

Forced psychiatry caused diseases unaddressed until I got better doctors.

circa 3:45 p.m.

Abuser, Dr Jeffrey Shelton, can be found here:

<https://www.facebook.com/jeffrey.shelton.391?mibextid=9R9pXO>

Saturday, September 16th, 2023

i bought a quater of a hybrid.

circa, 6:50 p.m.; I wrote this;

Tie dyed panther, oneiromancer,

vaguely hipped-out, tripped out,

reaction to disaster,

after certain characters due to questions not yet answered; I get evaded in a disrespectful manner,.

—

My most recent song Resistance to Psychiatry ;

There ought to be more resistance to psychiatry because of what's so violently endorsed within society.

Abusers who violate patients at hospitals

get away with it by portraying abused individuals as monsters.

Rebels left the hateful faculty members dismembered with their own scalps protruding from their own nostrils.

Brutality was inflicted upon me by those who tried to moralize with me while they tortured me, and stigmatized me as inherently wrong for surviving getting experimented on.

They retraumatize everyone they despise and they falsify medical records like insurance fraud would justify what they forcibly prescribed since I wouldn't be a pawn.

The alleged "independent fact checkers" were nowhere to be found when liars said there weren't any mental hospitals anymore.

The atrocities are even worse than before.

Torture is rampant in the name of psychiatry in an apparently hateful, sanist and insanist society.

What they had done to me had been done to many before me, forcibly drugging me and how the traumatized are depicted is scripted

The critical reviews are shared and not a mass delusion, the sadists employed at psychiatric institutions are taught to lie about the patients who are ostracized.

I sacrificed a lot to condemn the corruption. and I made contributions

Richard Miller is a killer who forcibly drugs the prisoners at the Wheeler Clinic, where the unwilling test subjects are considered vermin.

The sadistic Dr. Miller forces drugs upon children to determine how they'll be harmed, including the tardive depression; forced to mutilate their arms.

The hatemongers who get easy paychecks at group homes are murderous, including those at Gilead Community Services.

The liar Justin Salvio hides evidence of violations.

Women flee from group homes rather than to them.

They flee from predators who make a killing by abusing them.

Dr. Jeffrey Shelton sends victims through a revolving door by committing them over and over so they get victimized more.

He pushes drugs to cause depression and anxiety.

I don't expect any better from psychiatry.

I survived the brutality of Micheal Balkinas in New Britain, Connecticut,

The fact I survived is exactly why he's regretting it.

The Community Mental Health Affiliates is a scam by neo-Nazi nitwits who prey upon the compassionate, the gentle and kind.

Dr. John Nazarian forcibly prescribes drugs to terrorize minds.

The predators prescribe drugs to cause symptoms, either while taking them or withdrawing from them.

Blank checks are given the most inhumane and sadistic, the worst of the worst; the whole lot of them.

Twas conundrums to suffer in slums
where the crooks don't allow recovery
or independence.

When they vowed revenge, they meant it.

They boast they're above the law.

They'll regret it when pokes to corn husks feel like they caught boar tusks to the jaw.

Too many prescribers are liars and Scarecrow-esque,
Rebels spinning them into oblivion,
while facilities decorated in a manner so grotesque,
Blood shed to not denigrate the dead who were forcibly prescribed falsely
advertised drugs to get depressed.

(I called out charlatans to get called to account for faking autism for clout.

They so horribly lie, they glorify plight they know nothing about.

Prescribers who fear losing customers don't let the easy targets out.

A medical condition does not constitute a community.

Truth differs from a sitcom or a movie.

To those who accumulate a fortune trivializing and glamorizing the plight are to blame for the abusers' intrusions and extortions.

The populace are afraid of a fever and a rash that ends after about a week, so they'd rather be permanently prone to seizures and unable to speak.

They're pharmed like sheep and they'll vote for a creep.

Liars in a phony community online normalize and trivialize what they can't comprehend is devastating, not a gift or a superpower.

They pretend and they're exaggerating, denying the plight of many traumatized, stigmatized, minimized because of inconsistent lies; and they cower.

The media insults my intelligence by denying incontrovertible evidence.

Far from compassionate or sympathetic, the media downplays the devastating autism epidemic.)

Cartomancy

Monday, September 18th, 2023

Made progress.

The abusers at Gilead Community ``Services " are "nervous " and they called the cops on me. I asked to please relay a message to _____. I haven't recovered since she disappeared and I still suspect abuse. If her fiancée won't let her keep friends she already had, then he's abusive. Also, the engagement occurred *instantly*. Those are both red flags. _____ and I had no falling out, we had plans and then, I'm told about a "break from friends" *without warning*; like she would cause trauma. Just because she's engaged doesn't mean we can't still be friends. I know she'd never be "safe" at a group home. She fled because the staff members are abusive. She fled *to* me, not *from* me. If she needed a "break from friends", she would've *told me first*. As for, "she'll reach out when she's ready", that's too vague. Days, weeks, months? I'm dying, screaming in pain. "Why can't we be friends"? I was told to calm down. I'm not in any legal trouble.

My case was never transferred to Bristol Probate Court. I was told so late *last year*.
Tuesday, September 19th, 2023

I haven't lost hope.

Wednesday, September 20th, 2023

My mother is trying to get answers. She sent this:

"Hello, can you call Kedrick tomorrow, he's more calm and just wants to know that she's ok, and that she's not mad at him."

Also fyi she asked me (Through Kedrick) if I could be her rep payee. I declined but I just wanted you to know that information.

And Kedrick states nothing went wrong between them."

Thursday, September 21st, 2023

Acquired a quarter of Indicol. I've been calmer lately, continuing into tonight, except for alarming news:

Domestic violence rampant by cops. I found Megan's Facebook profile. I reactivated a profile she hadn't been forced to block yet.

She told me about the cop. "Not that serious yet" right before she got forced to block her friends except 1 fake profile. She's not really engaged as she claimed.

1 person on a friends list is a red flag. Happened before, she had to block her male friends. Now 1 friend, an abusive cop, apparently, ostensibly.

Friday, September 22nd, 2023

After a few comments remained without replies despite having posted since, posted this to Megan:

"1 friend = red flag. You're not allowed to have friends? For real? Not the first time you had to block friends. Not cool. You get abused and have to block your friends? ... Abusers make you block your friends, whereas I certainly wouldn't. Years ago, you said, "I have to block all of my male friends sorry" now 1 friend on the list? " I deduced the problem to a degree ... I was on the right track...

Knowing history, this entire scenario is suspicious.

I reported the spousal abuse to the Department, and *that's* why Megan had to block me again.

Saturday, September 23rd, 2023

My mother's birthday and the Autumn equinox.

I called the group home Megan got sent back to and expressed my concerns.

Sunday, September 24th, 2024

Control freak forced a woman to block her friends, and he's a cop. I'm terrified. I called the group home because that's the only way to report him without knowing his name.

I ate a banana, cashews, ginger slices and vegan chick'n.

Lacking what most take for granted, I do the best I can *without* resources. Most ppl with jobs won't spare a dollar. I'm poor and generous.

Wednesday, October 25th, 2023

I'm still lied to about Megan.

A cop forces her to block her friends. Domestic violence is the case.

I had omitted the victim's name until recently, after months of survivor's

Her and I got along great. She wouldn't ghost me. She's in an abusive "relationship".

A predator won't let us correspond.

If she was safe, she'd be allowed to contact me and escape the cops and the group home racket.

The victim didn't consent to the "relationship" with the police, especially not after I had to risk my life to protect her from them.

Circa 8:20 p.m.

"Hate mongers are faking #autism for clout. They're not on the #autismspectrum, they're on couches. They're not #ActuallyAutistic, they're couch potatoes. Autism isn't how it's portrayed on TV. There are more severe cases than mine, and I got abused in schools, hospitals and group homes; I won't downplay my plight. The media's lies are also inconsistent. The news endorses the lie that autism somehow causes rampages while fiction glorifies a devastating condition, hence the indecisive populace. "

Thursday, October 26th, 2023

I weighed 135 pounds this morning.

I bought an 8th of G.M.O.

circa 4 p.m.

" Gilead Community Services staff members know about domestic violence inflicted upon a so-called "client" and they prevent me from rescuing the victim while she's forced to lie at gun point. This abuser is a cop. The staff members know and they won't let her escape him. "

Tonight. I barely smoked weed since there's nothing to do. There's nothing to enhance. There's nobody here. I'm not about to waste weed.

After years of getting tortured in group homes, I'm still forcibly isolated. Solitary confinement is torture. Medical necessity goes to waste.

Despite legalization, nothing to celebrate. Still forcibly isolated. After winning a Probate Court case, still without positive interactions. Medicinal herb still saves my life, I just don't enjoy anything anymore because I'm trapped without friends.

There's nothing to enjoy. There's nothing to enhance.

I'm constantly reminded of the trauma from getting locked in cages, et cetera

If anyone else were compassionate, I wouldn't be isolated.

Insurance won't pay to save my life.
